Work Experience

Freelance Developer

Sep 2024 - Present

Self-Employed

- Designed and developed responsive websites and mobile applications tailored to client requirements, ensuring cross-platform compatibility and performance optimization.
- Utilized modern technologies like React, Flutter, and Shopify Liquid to build engaging user interfaces and seamless user experiences.

Flutter Developer

May 2024 - Sep 2024

DevXpress | Montreal

- Contributed to the development of a production-level mobile application, focusing on building responsive and user-friendly interfaces with Flutter.
- Developed navigation to different views and implemented functionality for address search and display using the Google Maps API.

Programming tutor

Jan 2023 - May 2024

Institut Teccart | Montreal

- Provided personalized programming lessons to students of varying skill levels, covering topics such as Flutter, React, Dart, JavaScript, and general software development principles.
- Designed and delivered engaging lesson plans, hands-on coding exercises, and real-world projects to help students build practical skills.

Projects

E-Commerce Steam Clone

- Designed and Developed a full-stack e-commerce platform using mainly React and Node.js to manage and wishlist video games.
- Integrated user authentication including login and sign up.

Online Movie Search Tool

- Developed an Online Movie Search Engine that allows users to browse and search for upcoming movies by category, view detailed information, and stay updated with the latest film releases.
- Created and implemented the website's user interface, integrated APIs to fetch and display movie data, and optimized the search functionality for seamless user experience.

Mobile Blogging Application

- Created a Flutter-powered blogging platform where users can write, edit, and publish blogs, explore content by category, and engage with posts through likes and comments.
- Designed the app's user-friendly interface, implemented Firebase for real-time data management, and developed core functionalities like post creation, search filters, and user authentication.

Core Skills

Flutter, React, Node, Clean Architecture, HTML / CSS, Javascript, .NET, MVC, PHP, Azure, SQL, Management, Organization, Problem solving

Education

Institut Teccart

Jan 2022 - May 2024

ACS / AEC Web & Mobile Programming

Certificates

- **Flutter & Dart : The Complete Guide**
- **React JS Master Class**
